Abstract

The information provided in these guidelines is designed to assist us in the compilation of the proceedings. The guidelines themselves are formatted according to the printer specifications, so please follow them precisely.

Keywords

A list of key or focus terms by which your paper can be indexed. Please centre this line!

Deadline

To be included in the ASCILITE 2001 proceedings, your paper must arrive in electronic form on or before **September 14th 2001**. Any papers received after this date may not be included in the proceedings. The hard copy pages will be printed from the electronic file exactly as you submit them, without any reduction or changes. Please send your electronic copy by email attachment to Gregor Kennedy (gek@unimelb.edu.au).

NOTE:

FULL PAPERS SHOULD NOT EXCEED 10 PAGES USING THIS FORMATTING, INCLUDING REFERENCES, ACKNOWLEDGMENTS AND COPYRIGHT NOTICES.

SHORT PAPERS SHOULD NOT EXCEED 4 PAGES USING THIS FORMATTING, INCLUDING REFERENCES, ACKNOWLEDGMENTS AND COPYRIGHT NOTICES.

Page Setup

Page Size

Your page size should be set to A4 and the margins set at the following:

Top: 30mm
Bottom: 30mm
Inner: 35mm
Outer: 35mm

Papers should be an even number of pages (even if this means a blank page at the end). Please use page breaks between all pages, rather than a series of enter keys.

Page Numbers

Please do not include page numbers in your submission.

Headers and Footers

Please do not include headers or footers in your submission.

Spacing

All text styles (Headings, Normal and Bullet text, etc) should be set at single line spacing with zero spacing before and after.

Accepted File Formats

The accepted file format for preparation of the proceedings is Microsoft Word generated using Microsoft Office. Please ensure that you **do not fast save your document** before submitting it as this option conflicts with the desktop publishing program.

Paper Structure

Title Details

Title of Paper

The title for your paper should be in Arial font, 14 point and bold, all capitals and centred. Place two blank lines after the title. There should be no separate title page.

Author Information

After the title give the name and affiliation of each author including department, institution, country and email address. Use Times New Roman 10 point, centred and place two blank lines after each set of author details. Each author name should be in bold and the email address in italics. Authors with the same department or centre affiliations should be listed on the same line and separated by commas with the final two authors separated by the symbol &.

Please do not put any acknowledgments here. If you need to recognise other contributions, place them in the optional *Acknowledgments* section at the end of the document.

Abstract

Abstracts should be no more than 200 words in length. Start with the word "Abstract" in Times New Roman 10 point bold. This is to be followed by the text of the abstract with left and right justification and indented 1.5 cm from the left and right margins; the text is Times New Roman 10 point italic. Place two blank lines after the abstract.

Keywords

The keywords you specify will be used to index your paper. Start with the word "Keywords" in Times New Roman 10 point bold followed by a list of relevant keywords, centred and indented 1.5 cm from the left and right margins. Place three blank lines after the keywords.

Main Text Details

Headings

Please use no more than 3 levels of heading and ensure they are applied consistently. The 1st level heading should be left-justified, Arial 12 point bold followed by one blank line. The 2nd level heading should be left-justified, Arial 10 point bold italic followed by one blank line if a 3rd level heading follows. The 3rd level heading should be left justified, Times New Roman 10 point bold.

Main Text

The main text should be Times New Roman 10 point with left alignment. Each paragraph should be followed by one blank line. Where a 1st or 2nd level heading follows a main text paragraph include an additional blank line.

Diagrams, Tables and Figures

All diagrams, tables and figures included in the paper should be clearly labelled and centred between the margins. Please leave two blank lines before and one line after the diagram, table or figure. Insert the label below each item, in Times New Roman 10 point italic and centred. Leave one blank line after the label.

All diagrams and figures created in programs other than Microsoft Word should be included in the document in the EPS format at 300 dpi at the size of reproduction. While TIFF and JPG images will be accepted, diagrams and figures in EPS format are preferred.

Literature References

Start the literature references with the heading "References" using the same formatting for a 1st level heading. Please use the referencing styles exactly as shown at the end of these guidelines to ensure consistency throughout the proceedings.

In-Text Citations

Details

Please use the author-date system (e.g. Australian Government Publishing Service or APA Style) and avoid the use of footnotes. Insert the sequence (Name, year) into the main text for a citation to a literature reference. Name refers to the family name of the author and year refers to the year of publication.

To cite several authors delimit the single authors by commas or the symbol &. The phrase et al. is valid for 3 or more authors **following the first full citation**. The year is written in long form (i.e. 1999) and use running lower case letters if you refer to more than one article of an author of the same year (e.g. Jones, 1999a, 1999b). Where more than one reference is used, separate each reference with a semicolon (e.g. Jones, 1999a; White & Beckett, 1997). Where a quote from the source document is included in the text, please refer to the page number, as in Jones (1999a; p.125). For quotations over two lines start a separate line (no space, no quotation marks) and indent the quotation 0.5mm from the margin.

Examples

... this special form (Black & Lines, 1998b) is very ...
... as described by Black and Lines (1998a) ...
... and this argument (Keystone et al., 2000c) is used ...
... across time and space (Jones, 1999a; White & Beckett, 1997).

References

References should be in alphabetical order of the first author. The second and subsequent lines for each reference should be indented by 0.5 cm. The following provides examples of referencing for different sources:

Reference List Formats
